Happy Leap Year Everybody!

This month is the first time in four years that we have had an extra day in February. Leap Years only happen once every four years, so we here at the Shout Radio Admin Team felt it deserved a special newsletter for the occasion!

This newsletter has all the latest news from around the station, stories from our Presenters and few track recommendations from our Presentation Team!!

Feature Your Song Recommendations and Stories in our Next Newsletter!

Song recommendations are chosen from the various songs that our volunteers submit to the newsletter. You could have a song of your own featured in our next newsletter. Got a gem from the 1950s? Maybe you discovered a song from the 2000s that you want to share with people! We take song recommendations from any era and any genre.

Not all songs can be featured in a newsletter. If yours is not featured, it will likely be featured in the next newsletter!

We also feature the stories of our volunteers in the newsletter. It could be the story of something you did recently, how your radio show started, how you joined Shout Radio or even how you found Shout Radio in the first place!

Not all stories can be featured in each edition of the newsletter, but don't fear! If your story doesn't get featured in the current edition of the newsletter, then it will be featured in a future edition. So feel free to share your stories with us.

Station News!

The latest updates to get you through the day

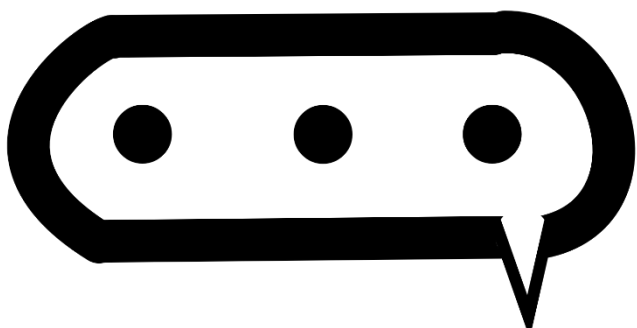

The team here at Shout Radio has been going from strength to strength. New volunteers have been joining us in all of our different departments. We are still on track for our eventual goal of having 100 volunteers at the station and are doing our best to ensure each and every volunteer has the training they need to do their jobs well.

We have also completely revamped the Shout Radio website! It looks much cleaner, faster to load and much more streamlined. Station Management is much happier with the new look. The admin team are also pleased with the changes that have been done with it.

Volunteer Stories!

Colin Ashcroft: This time four years ago I was in university studying media production. I was trying to figure out how to make Adobe After Effects work for one assignment and I was working on a graphic poster instructing people on how to protect themselves from COVID-19, as this was just before the UK went into lockdown for the first time. At the time, I had no idea of what was coming, but then again I don't think many of us did!
